Financial Policy

Patient Full Name:

Date of Birth: / /

Our commitment is to provide the very best medical care to our patients while recognizing the need to limit services to only those that are necessary for each patient. To meet this commitment, we recognize the need for a definite understanding and agreement concerning our patient's healthcare and the financial arrangements for that medical care. Your clear understanding of our financial policies is important to our professional relationship. Please contact our billing office regarding any questions about our fees, financial policies or your insurance coverage and your financial responsibilities

Professional Fees: Our fees for medical services are comparable to other similarly trained physicians in the community and reflect the complexity of your specific needs, the physician time dedicated to your care, the specialized nature of the doctor's education and training and support costs associated with providing and coordinating your care. We will be happy to provide you with detailed fee information at any time.

Patient Payments: Co-pays, deductibles, services not covered by your insurance plan or outstanding balances are due at the time of your appointment. Payments may be made with cash, check or credit card. Returned checks will be subject to the fee allowed by state regulations. We may utilize third parties to collect any unpaid balances. Please let us know if you are having a particular financial problem and we will try our best to work with you on a payment plan. Please feel free to discuss mutually acceptable payment arrangements with our in house Financial Coordinator or our Central Billing Office (800-341-8067).

Insurance Payments: We participate and accept assignment of payment with most major insurance plans in the area. Even though we may submit insurance claims for you, your insurance coverage is a contract between you and your insurer and you are still responsible for payments and services regardless of the amount your insurance pays. If your insurance company requires an authorization or referral, it is the patient's responsibility to obtain this for the initial visit and for continuation of care.

Additional Fees:

Missed Appointments: Please understand that when you reserve an appointment with one of our physicians, we are making a commitment to your medical care and this prevents another patient from receiving care at that time. To assist all of our patients with appropriate access to our physicians we may charge a fee for any office visit appointment cancelled with less than 24 hours' notice. Please note this fee is not covered by your insurance company.

Medical Supplies: Please note that certain medical supplies given to you at your visit require an advanced payment from you at check out. We will submit any charges for medical supplies to your insurance company, and we will reimburse you the payment difference made by your insurance company.

Medical Forms: The completion of disability forms, attending physician statements and other supplemental insurance forms all require physician and staff time to complete. Accordingly, a fee may be charged to complete most of these forms. Non-standard forms may be higher.

Nurse Visit: Please note that if a patient comes in without an appointment to speak to a nurse, depending on the time and complexity of the visit, there may be a charge for the visit.

You do not have to participate in a HIE to receive care from us and can opt out, but opting out of an HIE does not stop us from using or sharing your information as otherwise described in this Notice. Visit our website to learn more about the HIEs we participate in and related opt-out/opt-in information. Our ability to use and share your information as described in this Notice is not affected by whether or not you participate in a HIE.

We may also disclose PHI to someone who is involved with your care or helps pay for your care. If you are able and available to agree or object, we will make an effort to give you the opportunity to object prior to making these disclosures, although we may disclose this information in a disaster even over your objection if we believe it is necessary to respond to the emergency circumstances. If you are unable or unavailable to agree or object, our health professionals will use their best judgment in communication with your family and others.
6. Marketing. Provided we do not receive any payment for making these communications, we may contact you to give you information about products or services related to your treatment, case management or care coordination, or to direct or recommend other treatments, therapies, health care providers or settings of care that may be of interest to you. We may similarly describe products or services provided by this practice and tell you which health plans this practice participates in. Finally, we may receive compensation which covers our cost of reminding you to take and refill your medication, or otherwise communicate about a drug or biologic that is currently prescribed for you. We will not otherwise use or disclose your PHI for marketing purposes or accept any payment for other marketing communications without your prior written authorization. The authorization will disclose whether we receive any compensation for any marketing activity you authorize, and we will stop any future marketing activity to the extent you revoke that authorization.
